

Redinet and Microsoft O365 CSP

Redinet are now a monthly Office 365 Cloud Service Provider. At Redinet, we work closely with Microsoft as a Silver Cloud Platform Partner and Cloud Services Partner. This close relationship allows us to provide more flexible billing options than going direct to Microsoft.

Redinet's project team can fully manage your migration into Office 365 or Azure. It might only be a few mailboxes that need moving or an entire virtual infrastructure, either way it's all in the planning to ensure a smooth migration.

Key Benefits

- Purchase O365 direct from Redinet – utilise our expert team to find the best product for you.
- Monthly billing direct from Redinet – no more direct debits or recurring credit card bills.
- No fixed term contract – pricing stays the same whether you decide a monthly or annual commit.
- Retain your original 365 Admin Portal – smooth onboarding process, whether you're an existing 365 customer or new to the service.
- No interruption in service – migration is simple. One of our onboarding team will contact you to talk you through any steps you need to take. Alternatively, you can grant access to our team who will complete the process for you.
- Fully flexible – add and delete users with ease.
- Support via Redinet – SLA 2 hour for critical issues, 4 hour standard – no dealing direct with Microsoft.
- Option to be fully managed by Redinet, where we can keep track of your licenses for you. Or choose to be given your own personalised Marketplace, where you can add and delete licenses as needed.
- Depending on the number of licenses and users, you could save between 5-10% compared to buying straight from Microsoft or annual OLP.
- Access to all O365 Plans – from Business Essentials to SharePoint or Exchange Plans.
